### JLM Quality & Commitment - with a difference

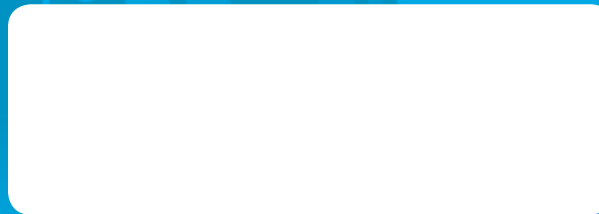

At JLM, we have developed a complete range of additives for consumers & the trade, with a difference, using the latest additive technology available in creating lubricants for today's cars.

For JLM, it's all about developing formulations to keep your car running like new, for improving performance, reducing everyday wear & tear, and reducing emissions.

JLM is committed to creating products that are different & make a difference to our environment, safe for consumers, and supporting the community in many ways.
