

SNR FREE WHEEL ALTERNATOR PULLEYS

OEM PARTS OR OEM QUALITY PARTS

The bearing is safety critical part : failure of a roller or a belt can have drastic consequences. By choosing SNR products, you have a firm guarantee on the reliability of your replacement. The SNR brand value is applied to all components, and the range offered contains only OEM parts or OEM quality parts.

SNR AFTERMARKET ACCESSORY RANGE

Having considered the increasing complexity of today's systems, which include many components in an accessory belt system, SNR Aftermarket has developed a complete range of accessories:

- Tensioners and Guide rollers
- Hydraulic tensioners
- **Free wheel alternator pulleys**
- Accessory Kits

SNR Aftermarket offers fifty kit references (KA). The range covers current applications with the most widely used accessory options.

The SNR accessory Kits contain all of the components needed to make an effective belt replacement, with guide rollers and tensioners (manual, or automatic-by spring or hydraulic) as required by the system.

Part No	Application
