

# SNR TIMING BELT KITS

## TIMING BELT KITS

SNR Aftermarket has a range of almost 300 timing belt kits (KD). These SNR Timing kits contain all of the components needed to make an effective repair :

- Tensioners, Guide rollers, and Idler Rollers
- Timing Belts
- Belts for Injection pump, camshaft, and balancing shaft if required.
- Camshaft pulley damper if recommended by the manufacturer

The aftermarket timing range covers more than 98% of the European vehicle including the main Japanese applications.

Because worn out rollers result in under-tightened belt and the risk of engine failure, always follow the vehicle manufacturers' recommendations and stated service intervals.

PART NO	APPLICATION	NETT €
KD457.14	SEAT/VOLKSWAGEN (14 APPL.)	€28.00
KD457.49	VAG-GROUP (48 APPL.)	€65.00
